4. thumbnails are not showing in videos like the below videos?

5. There should be a notification while viewing the result of the student as **“Tap to View”** on the term to view all subjects because some parents may think that only total and obtain marks are given!

6. From the dashboard when we click on any reporting of that student it's always showing the first student report at first! Like we are trying to View Result of amna after opening that page it will show stats of ayan because ayan is the first child in reporting

7. On clicking on these pages layout is disturbing like the second image!
